

EXECUTIVE SERIES

BY IDROFOGLIA

NEW LOOK... SAME LEGENDARY PERFORMANCE

The new look range of Idrofoglia Irrigation Systems includes the EXECUTIVE series of irrigators. Renowned for its premium build quality, industry leading features and design, Idrofoglia irrigation systems offer the rare combination of simplicity and superior performance.

FEATURES

- Efficient turbine design using less power to drive.
- Turbine coupled to gearbox.
- Four speed gearbox with gear oil bath.
- Hydraulic positioning via tractor remotes.
- Pro45 computer controlled speed for precise water application.
- 4 Meter rubber delivery hose.
- Automatic trolley pick up.
- Water canon trolley variable width track.
- Sime Gemini water canon with set of three nozzles included.

The EXECUTIVE is the premier model in the range of Idrofoglia products. The EXECUTIVE models are perfect for broad acre irrigation and are used extensively in the potato, sugar cane and pastoral industries. There are currently over 600 units operational in the Australian agriculture industry.

PERFORMANCE DATA - IG2 / IG3 MODELS
